

The Animal Behavior Institute offers 4 semesters per year. Each semester runs for 10 weeks, with a final exam to follow in the 11th week.

Each of our certificate programs consists of 5 classes.

Our courses are not the “study at your own pace” type, but rather consist of particular material to be studied each week, as well as quizzes to take and discussions in which to participate.

As not all classes are offered every semester, students can expect to complete a certificate program in 6 months to 1 ½ years. Students are allowed to take as much time as needed between semesters.

Our Laboratory Animal Behavior certificate program consists of 5 required courses.

The course list is as follows:

Required:

ABI 222 Animal Enrichment

ABI 233 Animal Training

ABI 271 Canine Behavior & Enrichment

ABI 272 Feline Behavior & Enrichment

ABI 378 Primate Behavior & Enrichment
