Certified Information Systems Security Professional

MSIT107 / 80 Hours / 12 Months / Self-Paced / Materials Inc

Course Overview:

CISSP® certification is a globally recognized standard of achievement that confirms an individual's knowledge as an information assurance professional who defines the architecture, design, management and/or control of information security environments. It was the first certification in the field of information security to meet the stringent requirements of the International Standards Organization (ISO).
